

ibs engineering supplies

IBS Engineering Supplies are your one stop industrial hardware shop on the Cassowary Coast

IBS Engineering Supplies is more than just bearings, we are your one stop for all your industrial hardware needs.

We stock a number of lines including power transmission, hand and power tools, welding and welding consumables, work wear and safety wear, fasteners and steel and industrial hardware.

Backed up by staff with years of experience across various industries, whether you're looking to build it, fix it, protect it, repair it or upgrade it, we can help you with it.

Where it all began

IBS Engineering Supplies was founded in 1978 by father and son team Ted and Bill Seawright as Innisfail Bearing Supplies selling bearings. Over the coming years the business would grow and expand to stock more than just bearings.

In 2008, IBS moved into our current premises on Palmerston Drive, Innisfail. The move gave us more floor space allowing us to expand our range and stock levels.

In 2021, to compliment our expanded range of welding and fastener lines, we officially opened the IBS Steel Division.

Customer Solutions

Our core driving factor is our customers. We don't just serve them, we talk to them, we listen to them, we find them the solution that meets their needs.

By listening to our customers, we find other ways in which we can help them. We're not just meeting our customers expectations, we're exceeding them.

Experience Matters

Our staff have years of experience across a number of industries, backed up with the knowledge of our supplier network, we are more than qualified to back what we sell.

steel and fasteners

IBS Engineering Supplies are your steel and fastener specialists on the Cassowary Coast.

RHS, box, plate, flat bar, pipe, channel, angle, whatever your steel needs, we can help. IBS Engineering Supplies can also cut to size, bend, punch and drill. When you're ready to assemble, IBS also has an extensive range of bolts, nuts and washers in addition to our welding and welding consumables.

For ease and convenience, you can simply drive in and load up. No need to lug steel around and you can escape the elements. We can also arrange for bulk steel to be delivered directly to you.

STEEL

Our range of steel includes:

- RHS (20 x 20 up to 150 x 100)
- Angle (20 x 20 up to 100 x 100)
- Flat bar (20 x 3 up to 200 x 10)
- Pipe (15NB up to 150NB)

ALUMINIUM

Our range of aluminium includes:

- RHS (20 x 20 up to 65 x 65)
- Angle (20 x 20 up to 50 x 50)
- Flat bar (20 x 1.60 up to 50 x 6)
- Tube (16 x 1.60 up to 50 x 3)
- Plate (5052 grade, 2mm to 3mm)

We also stock 1020 bright round bar, cleats, cattle rail, mesh, round bar and solid square bar.

CUT TO SIZE

We can cut your steel to whatever size you require. Additionally, we can bend and roll plate to your requirements as well as punch and drill holes to your specifications, saving you time and money.

FASTENERS

Our range of fasteners are available in metric or imperial sizes and are made from stainless steel, high tensile (zinc or plain finish) or galvanised with various heads including hex, cap screw, socket, pan and countersunk.

We also have flat or spring washers (stainless and high tensile) plus threaded rod (stainless and high tensile) and rivets (aluminium and steel)

bearings, seals and o-rings

IBS Engineering Supplies are your bearings , seals and o-ring specialists on the Cassowary Coast.

From a trailer to a tractor, we have an extensive range of bearings, o-rings, oil and hydraulic seals. Backed up by our experienced staff, and access to multiple suppliers across Australia, we have the stock, or can quickly source the parts, to help you get moving again.

BEARINGS

Bearings are designed to reduce friction and make rotation smoother. Alternatively, they can protect a part that supports rotation and maintain the correct position of a rotating shaft.

There are different types of bearings, including deep groove, tapered, and needle.

OIL AND HYDRAULIC SEALS

Oil seals close spaces between stationary and moving components in mechanical equipment to prevent lubricant escaping as well as keeping harmful contaminants out.

Hydraulic seals are used to seal openings between the various in an hydraulic cylinder and come in two types, dynamic and static.

O-RINGS

O-Rings are designed to seal two working surfaces to prevent the passing of air or fluids. O-rings are produced from a number of different materials, depending on their intended purpose.

IBS stock o-rings with inner diameters ranging from 1.42mm up to 158.75mm.

welding and welding consumables

IBS Engineering Supplies are the largest welding and welding consumables retailer on the Cassowary Coast.

As stockists of UniMig, WeldClass, WIA and Cigweld, it doesn't matter if you're a work day professional or a weekend DIY'er looking for a new machine, spare parts or consumables, IBS will keep you welding.

UNIMIG®

UNIMIG® inverter welders have been designed to get the maximum power output from a compact unit and are designed to withstand even the toughest of conditions from rough job sites to rural properties .

IBS have a range of UniMig machines available including Mig, Tig, Stick, Multi-process machines and Plasma Cutters. We back the machines up with a range of spare parts and consumables and technical support from UniMig's in-house technicians.

WELDCLASS

Weldclass began business 35 years ago, with a mission to provide welders and metal fabricators with world class tools and equipment.

As suppliers of welding helmets (and spares), welding safety products, abrasives, consumables and welding accessories. IBS' range of Weldclass products will ensure you consistently deliver a job well done.

TRY BEFORE YOU BUY

Welders can be a big investment, that's why we have set up two models of Weldforce welders for you to try out before buying.

INTRODUCTORY LESSON

If you're new to welding, or maybe you're just not sure about new machines, we offer a free introductory lesson on how to set your new welder up and get started using it. This offer is available to new welding machines we sell.

hand and power tools

IBS Engineering Supplies have an extensive range of hand and power tools and are stockists of some of Australia's leading hand and power tool companies.

We are stockists of Kincrome, SP Tools and Typhoon hand tools and Metabo power tools. We also carry equipment from Sutton Tools, KC Tools, Alemlube, Stanley, Macnaught, Suprabeam and have access to Milwaukee, Makita and HiKoki power tools and LED Lenser torches. Whatever the job, we have the tool to get it done.

SP TOOLS

SP Tools is an Australian owned tool manufacturer that is established in 30 countries around the world wide.

Their range of tools includes air tools, power tools, hand tools, auto speciality tools, garage equipment, air compressors, pressure cleaners and other associated products.

IBS is the largest stockist of SP Tools on the Cassowary Coast, providing a range from a single socket to a spanner through to a complete tool kit, pressure cleaners, air compressors and air tools.

suttontools
world class cutting tools

SUTTON TOOLS

Founded in 1917, Sutton Tools is an Australian family business known for its high quality power tool accessories and cutting tools for the hardware market as well as specialised industrial applications. Sutton manufactures cutting tools at two sites across Victoria for both the domestic and export market.

IBS carry Sutton drill bits, taps, dies, carbide burs, hole saws, screw extractors, hacksaw blades, and cutting fluid, all the necessary accessories to get you drilling and cutting through some of the hardest materials.

METABO

Metabo power tools have a history dating back to 1923. Nearly a century later, the German made power tools and accessories are used world wide by industry professionals and DIY'ers and are at the forefront of innovating the power tool market.

Whether it's for work or around the home, IBS have a wide range of Metabo power tools and accessories to help you get the job done.

hand and power tools

KINCROME

Established in 1987, Kincrome is a privately owned Australian company that began as a supplier to the automotive industry.

Over the years Kincrome have expanded into the industrial and hardware markets. They have an extensive range of hand and power tools and accessories for the professional or for around the home.

Whether you're chasing a screwdriver or a pressure pump, IBS have a variety of Kincrome tools at competitive pricing.

ALEMLUBE

Alemlube is a 100% Australian family business whose core philosophy is based on constantly reassessing what industry is looking for and requiring, whilst at the same time working with their distributors, mindful of what they need to reach and achieve their goals and objectives.

Alemlube represents and works closely with many of the world's leading manufacturers and brands in the fields of lubrication and refuelling equipment, hose storage and retrieval solutions, spill containment products, vehicle hoists and wheel servicing equipment.

From a grease nipple to a drum pump, IBS' Alemlube range will help you maintain your plant and machinery and minimise breakdowns.

SUPRABEAM

Suprabeam develop and supply LED torches and LED head torches for professional craftsman in industry, automotive and outdoor applications.

Danish designed, and Swedish built, Suprabeam's ultimate purpose is to provide the users with a "Real light"-experience, by giving them the power of deciding how they want to use their product. The products are programmed by Suprabeam's electronic control to deliver to highest possible light output for the entire duration of the battery's lifetime, providing the light you need in "real life situations".

If you're looking for a torch to help you find your way to the toilet at night, or looking for something brighter, IBS' Suprabeam range will help you light your darkest hour.

MACNAUGHT

Established in 1948, Macnaught has been designing and manufacturing premium fluid measurement, fluid transfer and lubrication equipment for the agricultural, automotive, industrial, mining and transport industries across the globe.

IBS's Macnaught range includes grease, oil and fuel equipment as well as Retractable hose reels.

work wear, ppe and embroidery

IBS Engineering Supplies are your uniform specialists on the Cassowary Coast. We offer safety and corporate work wear from Pro Choice Safety, Bisley, Ritemate and FashionBiz as well as foot wear from Mack, Steel Blue and Oliver Boots. We also offer in-house embroidery which makes us your one-stop shop for your uniform needs.

PRO CHOICE SAFETY GEAR

Pro Choice offer an extensive range of PPE to keep you safe at work including, protective headwear, face, hearing, eye and hand protection, respiratory gear, sun protection and site safety.

BISLEY WORKWEAR

One of Australia's most recognised brands, Bisley offers a wide range of safety and work wear across a number of styles including light weight, regular weight, night safety, winter wear, hi-vis, painters and industrial clothing tailored for women.

RITEMATE WORKWEAR

Ritemate Workwear offer a range of industrial work wear and hi-vis safety garments.

Ritemate's Pilbara Collection range covers you from corporate to country, for men, women and children and is made from 100% Australian grown cotton.

FASHIONBIZ

FashionBiz was established in New Zealand in 1989 before expanding to Australia in 1998. FashionBiz services a number of different industries through their different brands which include:

Biz Collection Apparel (promotional, corporate, and team wear), **Syzmik Workwear** (industrial and safety), **Biz Corporates** (corporate uniforms) and **Biz Care Apparel** (medical)

WORKWEAR

work wear, ppe and embroidery

STEEL BLUE WORKBOOTS

Steel Blue offer a range of work boots designed for a number of different industries for both men and women.

They are endorsed by the Australian Physiotherapy Association for the way their boots protect the wearer from stress-related injuries to the ankles, knees, hips and spine.

Steel Blue also support breast cancer research through their Pink and Purple Boots and mental health through their range of Blue Boots.

OLIVER BOOTS

Oliver is one of Australia's best known, and oldest manufacturers of boots, dating back to 1887. With an extensive range - pull on, lace up, zip sided, and covering a number of industries from corporate through to mining, you'd be hard pressed to not find an Oliver shoe that doesn't suit your needs.

Oliver have a commitment to continuous product innovation which has resulted in their range offering comfort and ensuring foot safety regardless of your industry.

MACK WORKBOOTS

Known world wide for their trucks, Mack's work boots are designed to be just as tough. With a range from safety to hiking and casual, Mack work boots are ideal for a number of industries.

work wear, ppe and embroidery

IN-HOUSE EMBROIDERY

From start to finish—don't buy your uniforms from one business then take them to another to be embroidered. We are able to embroider your logo onto your uniforms saving you time and money.

NAMES

We don't just do logos, we are also able to embroider names onto your uniforms in a variety of different fonts.

LOGO DIGITISING

What is "digitising"? Digitising is the process of taking your logo and converting it into a file format that is compatible with embroidery machines.

The process determines what, and how many colours are needed, along with how many stitches the machines will make!

All that is required is a good quality, high res copy of your logo in either JPG, PNG, or BMP format .

DON'T HAVE A LOGO?

If you don't have a logo, or maybe you're looking to refresh your existing logo, we can put you in contact with a Cassowary Coast based graphic designer who will work with you to develop or refresh your logo.

workshop equipment

and consumables

IBS Engineering Supplies are your one stop shop for workshop equipment and consumables on the Cassowary Coast.

Whether you're jacking up a car, lifting out an engine block, climbing a ladder to get onto the roof, lubricating that vital piece of machinery, or you have something that doesn't move but should, IBS Engineering Supplies have what you need to get your workshop sorted.

LADDERS

Whether you just need a couple of steps or if you need to reach the roof, with over 60 years behind them, Bailey Ladders will have the ladder or access equipment to help you get the job done.

IBS have a range of Bailey ladders in stock, but we have access to their complete range which includes step stools, single-sided, double-sided, dual-purpose, platform stepladders, order picking ladders, extension ladders, and modular access systems. Fibreglass ladders are also available for wherever an electrical hazard exists.

WHEELS AND CASTORS

If it needs to roll, then Richmond Wheel and Castors will have what you need to get things rolling.

IBS have a range of castors from 75mm to 150mm in various materials and wheels from 100mm up to 420mm. We also keep pallet jacks in stock to help you lift and move things around the workshop.

CUTTING AND GRINDING

IBS stock a range of cutting and grinding discs to suit aluminium, stainless, mild or hard steel in various sizes for various applications.

IBS also stock waterproof sanding paper, flap discs, abrasive bands, fan grinders, and carbide burs

LUBRICANTS

IBS stock the Chemtool range of lubricants, including brake cleaner, carbi /choke/ throttle cleaner, belt grip (including food grade), silicone spray (including food grade), anti-seize (nickel and silver), lanolin, and rust breaking penetrating oils.

ADHESIVES AND SEALANTS

Chemtools range of adhesives and sealants include low, medium and high strength threadlockers and gasket sealants

workshop equipment

and consumables

CLAMPS AND VICES

If you don't want it to roll, then lock it in place with our range of clamps and vices from Industrial Tool and Machinery. We keep a range of ITM's bench vices in straight and offset ranging from 75mm up to 200mm.

Our range of ITM clamps includes "C" clamps, "F" clamps, heavy duty "F" clamps, extra heavy duty "F" clamps, quick action clamps, pivot handle clamps and Ehoma general purpose clamps.

WORKSHOP MACHINERY

ITM have a range of workshop equipment which IBS stock or can source including pedestal drills, air compressors (including spares and fittings), grinding machines (including Multitool attachment), sharpening machines, fans and ventilators, benders, metal cutting saws, punches and shears, and bevelling machines.

BRUSHWARE

Cleaning surfaces before painting or welding is a must. IBS have a variety of brushware tools from ITM including twist knot cup / bevel / wheel / end brushes, crimp wire cup / wheel / end brushes, timber handled brushes and nylon spindle mounted wheel brushes and flapper wheels.

PAINTS AND PRIMERS

Once you've cleaned or welded a surface, you need to protect it. IBS' range of Dy-Mark paints and primers will do just that.

Need to mark out an area? IBS also stock Dy-Mark's line marking paint.

IBS also stock electrical parts cleaner and air dusters for sensitive equipment and general contact cleaner and lubricants for all other equipment.

MATERIAL HANDLING

From a simple dee shackle to a chain block, if it needs to be tied down or lifted up, IBS range of material handling from Beaver Brands will ensure you do it safely.

IBS stock dee shackles (tested and untested), bow shackles snap hooks, turnbuckles, lifting eyes (bolt and nut), flat webbing and round slings, ratchet tie downs, load binders, chain (galvanised and plastic), girder trolleys and lifting blocks.
